ACCURACY PRODUCTIVITY QUALITY SAFETY

February 17, 2005

To Whom It May Concern:

Re: Product Safety.

We, hereby, confirm that the TruckWeight Handheld and Sensor (also referred to as the TruckWeight wireless truck scale, and Smart Scale) are acceptable for use in Class I, Divisions 1, Groups A, B, C and D, Class II, Divisions 1, Groups E, F and G, and Class III Division 1 Hazardous Locations.

Both the Handheld and the Sensor are ultra low-energy devices that include energy limiting circuits and low-voltage batteries (2 X 1.5 V). Both devices feature very low power consumption (less than 18mA/54mJ/s peak).

If you should require any further information please contact us.

Yours truly,
TRUCKWEIGHT, INC

Peter Panagapko
President
